EXTERNAL ROTOR PMSM

DIAMETER 1.5M - 3M

# V150e

## EXTERNAL ROTOR PMSM

### Intelligent portable remote control

The RF controller or optional Wi-Fi touch wall control optimizes HVAC performance, helping to reduce electricity costs by up to 25%.

### External rotor motor

Lightweight structure, suitable for installation in various spaces.  
Compatible with standard ceiling structures.  
Installation certified by the manufacturer.

### LED light kits

- The adjustable brightness PANDORA LED light kit offers 5700K/4000K/3000K with three color temperature options, giving you full control over the lighting in your living space.

### Customize colors

- Designed for gallery-quality aesthetics and crafted for real-world conditions, PANDORA offers customizable colors to match your décor or company branding.

- PANDORA ceiling fan is notable for its advanced PMSM (Permanent Magnet Synchronous Motor), which ensures energy efficiency and superior performance.
- The airfoil blades, crafted from aircraft-grade aluminum, feature a patented winglet design that reduces both wind resistance and noise, enhancing its quiet operation.
- PANDORA is sleek and lightweight design makes it an excellent fit for modern interiors, particularly in spaces with lower ceilings or where a more open, non-oppressive atmosphere is desired. Its blend of aesthetic appeal and quiet, efficient performance makes it an ideal choice for both residential and commercial settings, where comfort and design are key considerations.
- The PANDORA ceiling fan with LED light kit options adds an extra layer of functionality and aesthetic appeal to its sleek design. These integrated LED kits provide energy-efficient lighting solutions that complement the fan's modern look, allowing users to enjoy both air circulation and illumination in one unit.

### Designed Airfoils with Winglet Plus

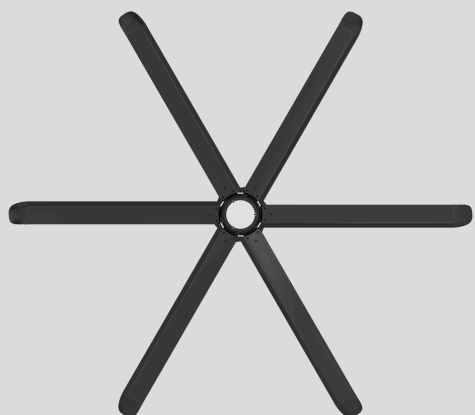

- The airfoils use Winglet Plus which can cover 28% more area than the regular 0-degree airfoils.
- Integrated molding with light weight, and easy to clean; The reinforced structure has stronger resistance to deformation and fracture
